HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.
It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, hitherto considered the best in use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO FEBRUARY 18

Congressional.

WASHINGTON, Feb 17.—In the Senate Wilson, from Committee of Conference on the West Point appropriation bill, made a report, which was adopted by the Senate. It is in favor of an amendment striking out the House for appointment of two Senators and three Representatives on the board of visitors.

Sumner, from Committee on Foreign Affairs, reported a joint resolution authorizing the payment of full salary to Hovey, Minister to Peru. Passed.

A joint resolution for the relief of Commander Russell passed.

Several miscellaneous resolutions were introduced and referred.

Scott, from the Naval Committee, gave notice that the following resolution has been adopted for the government of the committee:

Resolved, That in the judgment of the committee, Congress ought not to retain any application of officers for restoration to the naval service who have been dismissed by sentence of a court-martial, unless such restoration is recommended by the executive department.

Sherman asked that an order be made with a view of disposing of the Mississippi bill at three o'clock. Unless the bill was speedily disposed of he would move to lay over in order to take up other business demanding prompt consideration.

Cameron and others objected to the proposed order, and the matter was informally laid aside.

The bill amending the naturalization laws was taken up. A Senator said, in his opinion a change was demanded not in principle of the law respecting naturalization, but in the administration of law, to provide safeguards against frauds, and to facilitate access to the naturalization of well disposed persons. Such was the object of the bill.

The Mississippi bill was then taken up, and after discussion by Fowler, Savage, Drake, Sumner, Warner, Cameron and Trumbull the Senate proceeded to vote on Willey's amendment to repeal the conditions of the Virginia bill. It was defeated by 24 to 30. A vote was then taken on the amendment by the Senate Committee to strike out all the conditions and simply declare the State entitled to admission. Rejected by 27 to 32. Cole, Casserly, Stewart and Williams voted aye, Nye, no. The bill was then passed by a party vote, Ayes 50, noes 11. The Senate adjourned.

In the House, the bill to prevent and punish polygamy in Utah was considered. Cullom spoke in explanation and advocacy of the bill, and read a letter just received from a gentleman of character and official position in Utah, stating that unless some such bill is passed, every man not a Mormon would have to leave that Territory and that very soon, or place himself where he will inevitably be murdered. He thought only a few companies of soldiers would be necessary to enforce the law in Utah. It was only necessary to give the courts power to enforce convictions for the violation of law, to show that the Government meant business and did not mean to temporise any longer with that iniquity. The morning hour having expired the bill went over.

Lynch, from the Select Committee on Navigation Interests, reported two bills for the relief of commerce, which were ordered printed and made the special order for the 3d Tuesday in March.

The House went into Committee of the Whole on the legislative appropriation bill. A discussion of the Court of Claims item occupied an hour and a half. All the proposed amendments were rejected. An amendment relative to the Secretaries to the President was discussed over an hour and finally rejected.

Kelsey denounced the Second Assistant Secretary for having been at heart, though not in action, a malignant rebel during the war. His wife and family were out and out secessionists, and his house had been made a rendezvous for rebels. Jenck denied the assertion in most positive terms.

Farnsworth denounced the extravagance of the supervising architect of the Treasury, Mullett, but Lowe (?) of Massachusetts defended Mullett.

The Committee rose when Beck, from the Committee of Conference on the West Point appropriation bill, made a report which was agreed to.

Logan asked leave to introduce and have passed a bill appropriating $3 000 for expenses of witnesses in regard to the sale of cadetships. Schofield objected, when the House adjourned.

Tite Barnacles in England s Circumlo Office, have for years been quietly g at British Columbia drifting toward ation to the United States so far at as the sentiment of the people of th y could affect such a measure It however that the Barnacle family has felt its way along the red tape which ever leads to results, and has found at d of it a condition of affairs well calcu o make each individual hair on the le head to stand on end Here is what rnacles found British Columbia wedg etween Washington Territory on the and Alaska on the north, with an ocean common to British and American ves ts capital town largely settled with cans enjoying [illegible] trade with nous American sea ports American ritish society mixed, all interests [illegible] al and social of the two nationalities ng in common channels Americans in Colonial towns and villages Americans mines Americans everywhere a large nt of British subjects talking openly f ssibilities or the desirableness of annex British subjects all complaining of neg y the home Barnacles British loyalty rusting away under such neglect and in general in a dooced state The Barnacles [illegible] with [illegible] this thing [illegible] a hundred times [illegible] The suddenness with which Mr Tite Barnacle has quit warm ing his back by the fire and has gone to work to set things right, is startling decidedly

The telegraph informs us that the colony of British Columbia [illegible] and shillings [illegible] an extent as [illegible] make every [illegible] perfect stupor of amazement and admiration [illegible] the whole race of Barnacles It is [illegible] contemplated [illegible] the coast [illegible] nightly mail steamships subsidized and rail road across the continent on a double track Northern Pacific railway to be begun on the [illegible] within three years to be Parliament [illegible] in the most dazzling manner and to be [illegible] filled over with docks hospitals, asylums, [illegible] Bailies etc etc in a style of such be wildering munificence as none but a true scion of the Barnacle family could have ever promised British Columbia lay prostrate one day under the weight of an overwhelm ingly brilliant blaze of Barnacle promises that was February 15th in the year of our Lord 1870 when Gov Musgrove, being ill opened the Legislative Council by commis sion, and emptied his government budget as aforesaid upon the Britons of Colonial Co lumbia Thrice happy Columbia! Tri umphant Barnacle! Alas, for the dream of annexation! It is no more!

But seriously Mr Tite Barnacle has dis covered that the Americans are going to build a railroad right off, which will be in almost a direct line of communication between the Canadas and British Columbia running its whole length along near the border of his provinces, none of which are so firmly de voted to the parent government as to remain forever insensible to the commercial and so cial blandishments offered by their Yankee neighbors Mr Barnacle has waked up at last to find that if he would still hold British Columbia at the end of his red tape he must proceed at once to *promise* the Colonists a first class transcontinental railroad Some of these days the completion of our Northern Pacific railroad will remind him too that he must fulfill his promise, or see his Colony of British Columbia sit down in the lap of Hail Columbia

SATURDAY MORNING, FEBRUARY 19, 1870.

CITY.

A COURT SCENE.—The Recorder's court room was the scene of some very amusing domestic infelicities yesterday afternoon. Billy Cooper, a half breed American, complained that Jack, a whole breed African, had assaulted him, whereupon Jack was arrested. The testimony of Billy was given under some disadvantages, he being about ten ninths drunk and weeping copious tears of grief because he had gone to Jack's house to see his own wife and Jack wouldn't let him see her, but ruthlessly knocked him down and kicked him. The alleged wife was brought in to testify. She was a "dusky maiden of the forest," and as her affections seemed about equally divided between Jack and Billy, the attorneys were afraid to put her on the stand and the case closed. Jack being arrested at his own house as was alleged, the question arose as to whether it was "the house that Jack built?" Another knotty feature of the case was as to how Jack could kick the prosecuting witness while he, Jack, was standing on his feet as testified, seeing Jack had but one foot to stand on, or how he *could* have kicked if he had had another foot seeing he had but one leg. The learned counsel were endeavoring to clear up these intricate points and enlighten the mind of the Court upon the profound questions involved when our dinner hour arrived.

UNPLEASANT REPORT.—The *Catholic Sentinel* says: "A committee of the Conference of St. Vincent de Paul visited the County Poorhouse a short time since, and pronounce it a poorhouse in every sense of the word and a disgrace to a christian community. The building in which the county poor are living is only partially finished, and they are compelled to stuff rags, etc., into the crevices in order to keep out the cold. Blankets are scant and poor, and as for their spiritual or mental care, they have none. The above mentioned society have tried to relieve their wants in regard to reading matter, by furnishing them with books and papers, and will do all in their power to continue to provide for them in that matter." The grand jury, lately in session, as we are informed, made no report concerning the above institution, as is usual. We are unable to tell why the customary investigation was not made, but justice requires that steps should be taken to ascertain if all that is said be true. Common humanity dictates that better accommodations be provided for the unfortunate inmates of the almshouse than seem to be, judging from the report of the visitors mentioned by the *Sentinel*.

PROGRAMME.—The programme for the band at the plaza this afternoon, at half past two, is as follows:

1. Radetzky March.
2. Cookoo Polka, *Herzog*.
3. Drift my Bark, Song, *Kucken*.
4. Quadrille from Belle Helene, *Offenbach*.
5. The Coronation March, in "Le Prophete," *Meyerbeer*.
6. Spring Waltzes.
7. Ballad, "The heart bowed down, (from the Bohemian Girl,) *Balfe*
8. New Express Gallop.

CLOSE OF THE SEASON—BENEFIT.—Next Monday evening will close the present theatrical season at Oro Fino Theater. On that occasion a benefit will be given to Mrs. F. M. Bates, than whom no more deserving and, we might say, no better actress has ever appeared on the stage in Portland. For two winters our city has been furnished with first-class dramatic entertainment by the exertions of Mr. and Mrs. Bates, and on Monday night a fitting testimonial of the full appreciation of those efforts should be given by a crowded house.

OREGON PRODUCE.—The receipts of certain articles of Oregon produce at San Francisco during the month of January are reported as follows: Flour, qr sks 84,931; wheat, sks 8,782; oats, sks 1,066; salmon, bbls 10, hlf bbls 47; bacon, pkgs 614; beef, bbls 19; butter, pkgs 211; hams, pkgs 123; lard, pkgs 633; pork, bbls 837; dried apples, pkgs 58.

WORTH FOUND.—An excellent description of a Locomotive Engine can be found in the New American Cyclopedia, Vol. XV. A rather witty story concerning a Chicken Grabbist has been going the rounds of the papers for a long time. Both of these may be found in the local column of one of our city cotemporaries of yesterday.

ENLARGING.—The headquarters of the Clerical department of the city government are being enlarged by removing the partition between the Auditor's office and the Committee room. Mr. Caldwell will have a much more commodious and better arranged office than heretofore.

POLICE MATTERS.—His Honor Recorder Anderson yesterday sent John Doe up for two days for drunkenness.

John Collins was arrested, being charged with furnishing liquor to an Indian. He was held to appear this morning for trial.

SECOND SERMON.—Mr. Eliot, of the Unitarian Church, gives a second sermon at Oro Fino Theater, Sunday evening, the service being properly advertised elsewhere. The subject is *Judas Iscariot*. The public are cordially invited to be present.

CLEANING STREETS.—Quite a force of "Johns" were employed in cleaning the streets in various parts of the city yesterday. The Nicolson pavement makes a beautiful street when kept clean.

UP THE RIVER.—The *Yest* will connect with the *Albany* at Oregon city this morning. The latter will go up the river as far as Harrisburg. The regular afternoon trip of the *Senator*, from Portland to Oregon City will be omitted to day.

BEGUN.—We notice that ground has been broken on the corner of Capt. Ainsworth's lot, fronting on Fourth Street and Oak, for the erection of a French cottage building by E. C. Bryan, contractor.

MOTION DAY.—To-day is set apart by Judge Upton, of the Circuit Court, for hearing arguments of counsel upon the various motions, demurrers and other dilatory pleas in cases now pending before him.

COSTS.—In the case of Lenaghan vs. Multnomah county, the judgment was against the plaintiff for costs, instead of against the county, as published in the Circuit Court proceedings of Thursday last.

LECTURE.—Mrs. Rosa Martin, "Trance Speaker," will deliver a lecture at Harmony Hall on Sunday evening, the 20th inst., at 7½ o'clock. Subject:—The Power of Kindness. Admission free.

TO THE P. W. CO.—If you will inform us at least thirty minutes before you shut off the supply of water to this office at night, it will save us serious inconvenience.

A Georgia writer says that an ingratitude "falls like a drop of acid into the milk of human kindness and turns it to acrid clabber."

PERSONAL.—Governor Woods and family returned from St. Helens yesterday. He made us a brief call last evening.

The Petersburg *Index* has a grand scheme for the regeneration of Virginia. It is, in brief, that everybody go to work.

A Southern paper remarks that the Mayor of its city "rarely misses an oportunity of making a mistake."

BRIDGET BRIENEY.—An important message is at the telegraph office for you.

DUE.—The steamship *Ajax*, from San Francisco, is now due at this port.

Boston has had, this season, eighteen snow storms and no snow.

THE WEST.

The Stockton *Independent* has passed to its eighteenth volume.

The Idaho *Tidal Wave*, has been sold to Hill & Millard, who will hereafter publish it as the *Avalanche*.

A new order has been established in Chico bearing the name of the Twenty-Ones. Its object is the promotion of the cause of temperance.

The Republicans of Yreka, like the colored people of New York, propose to become jolly when the Fifteenth Amendment shall be adopted.

W. H. C. Griffith, formerly of Elko, died at Mountain City, Cope District, Jan. 28, from the effects of exposure during the late severe storm.

Alfred Barstow, Special Agent of the Post Office Department for California and Nevada, has been ordered to Washington by the Department on postal matters connected with the district.

The Los Angeles *News* says: "A day or two since, a lady at Wilmington presented her liege lord with a pledge of affection, in the shape of a bouncing boy, which weighed, at birth, twenty-one pounds."

The Winnemucca *Register* says that the farmers in that vicinity are preparing to put out a large crop of small grain the ensuing spring. Mr. Byrns, of Paradise valley, will seed 300 acres to wheat and barley. Other farmers there will do likewise.

The California and Oregon Railroad between Marysville and Chico, has not been entirely deserted by laborers, as there are thirty-five Chinese wood choppers at present engaged between Butte creek and Chico, opening the way for graders when the season arrives.

The Lost River and Klamath Lake districts are reported as settling up rapidly. All the Indians nearly are upon the Reservation, and the others are gradually coming in. There are between 1,400 and 1,500 altogether, comprising about 800 Klamath Lakes, 350 Snakes, and 300 Modocs.

The report from Washington of the passage of Julian's bill in the House restricting the disposal of the public lands in California to the operations of the Homestead and Pre-emption laws, has had the effect to greatly enhance the sale of lands at the United States Land Office in Los Angeles within the past two or three days. Several San Francisco operators are said to have arrived there lately, with a view to take up such lands as are now subject to entry, before the final passage of Julian's bill robs them of all opportunities in that direction.

The Aurora *Beacon* of the 29th ult. has an account of a remarkable journey undertaken by two women and five children. They passed through that city on the 28th ult., on their way to Kansas. They had walker from Philadelphia to Cincinnati, at which place the Mayor procured a pass for them to Chicago. From Chicago they walked to Aurora, where funds were raised to send them by rail to Quincy. One of the women, the mother of the children was named Sarah Chaffee, and the other, a sister, Elizabeth Ray. Four of the children are girls; the other, a boy, aged 10.

In 1662 the French national debt amounted to 17,000,000 francs; in 1760, 785,000,000; in 1807, 1,912,000,000; in 1821, 3,466,000,000; in 1844, 5,000,000,000; in 1860, 11,000,000,000.

For strong elastic seams, ease of motion, rapidity and simplicity, you require a GROVER & BAKER SEWING MACHINE.

GO TO STONE'S, on Front street, to buy your Silver ware. Silver spoons, forks, butter knives, &c., &c., are the cheapest in the end, because they will last a lifetime; and then, Stone sells *So Cheap*. He also has a fine lot of plated as well as solid silver ware.

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany, and the West Side Company will, very probably, build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kohn & Fishel are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest Boys' Suits and always have on hand a large stock of the same which are offered at lowest figures.

VALUABLE.—The recent bill before Congress granting aid for the construction of a railroad from the Columbia river to Puget Sound, if passed will make the large tracts of coal and timber lands owned by the Puget Sound Homestead Association on the Skookum Chuck and Newaukum very valuable.

A few shares only remain untaken and can be had at the office of the Secretary or of Mr. Conklin, Canvassing Agent.

REMOVAL.—J. W. Campbell has removed his new Patent Bed Bottom manufactory to Messrs. Jenson & Rethlefsen's Cabinet and Carpenter shop, southeast corner of Morrison and Fourth streets. Although but recently introduced, the Minnesota Bed Bottom is fast coming into general use and is giving general satisfaction. Come and see it. j29d1m

The Season and its Dangers.

The human body is chiefly composed of tissues and fibres as sensitive to every change in the condition of the atmosphere as the most delicate electronometer, or the quicksilver in a barometer tube.

The stomach, the skin, the nerves, the lungs, and the excretory organs are especially liable to be affected by these variations, and the best defence against their disastrous tendency is to keep the digestive machinery, which feeds and nourishes the whole system, in good working order.

If the stomach is weak or disordered neither the blood nor the bile can be in a healthy state, and for the fitness of these two important fluids for the offices assigned to them by nature, and the regularity of their flow, health in a great measure depends.

When the air is heavily laden with chilling humid vapors, digestion should be an object of peculiar care. If it is weak and languid, the whole physical structure will be enervated. If it is vigorous, the entire organization will be strong to resist the untoward and depressing influence of a damp and vitiated atmosphere.

A pure and powerful tonic is therefore especially needed as a safeguard against the diseases most common in the wet season, and Hostetter's Stomach Bitters being the most wholesome and potent medicine of the class at present known, a course of it is particularly advisable at this time.

The stomach will thereby be toned and strengthened, the liver and bowels regulated, the nervous system braced up, and nature put in a state of active defence against the miasma which superinduces intermittent and remittent fevers, rheumatism, nervous debility, headache, hypochondria and other complaints which are apt to assail the untoned and unfortified organizations. The body is strengthened without exciting the brain, and consequently no unpleasant reaction follows its reviving and renovating operation.

HIRAM SMITH'S
Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE, NATHANIEL BELL,
A. L. WALLACE, G. B. WARD,
Mrs. MONTGOMERY, JOHN M. HOLLOWAY,
W. D. PORTER, ROB'T RAMSEY,

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

FINANCE AND COMMERCE.

Evening, Feb. 18, 1870.

S. F. Legal Tender rates, 83¼ buying; 84 selling.

Portland Legal Tender rates, 83½.

The money market is in a better condition at this time than might be expected under the general dullness prevailing in commercial circles. The deposits of gold at the mint in San Francisco during the month of January were, according to the *Bulletin's* report, 51,260 ounces of gold and 8,907 ounces of silver, against 9,060 ounces of gold and 18,889 ounces of silver for the corresponding month in 1869. It should be remembered that the Mint was open for business only a few days in January, 1869, whereas during the past month there has been no cessation of business. In January, 1868, the gold deposits received amounted to 9,143 ounces against 27,334 ounces for the same month in 1861. This statement shows that the gold product of the coast, during the time alluded to, was, all things considered, a good average and presents no matter of discouragement.

From the commercial report of a California exchange we learn that there is likely to be considerable competition in the sugar trade of San Francisco during the ensuing spring and summer. Dealers in that city began the year with an unprecedentedly large stock, amounting to some 19,500,000 lbs., equal to nearly one-half of the consumption in 1869. On the 1st January the agents of the California Refinery reduced the price of crushed from 15c to 14c and again to 13c. One object of this reduction was to break up the practice of guaranteeing the price for a period, which has lately obtained in that market. The effect of this state of affairs is felt here and rates for this commodity have gone down to a very moderate figure. A similar decline has also been noted respecting syrups, only in a less degree.

Our local markets to-day present but little subject matter for the basis of a review. The receipts of grain and flour from the interior are large, the quantity of wheat alone coming to hand by river at [illegible] on yesterday and to-day being over 6,700 bushels. About 1,500 sacks of flour were received from the same source to-day. Prices remain unchanged. The present prospects for an abundant harvest in the wheat growing portions of the Pacific coast render purchasers cautious in taking the chances of buying up more than is necessary for present demands, and keep the article at a remarkably low figure.

Other articles of home production are in good supply and rates steady. Wholesale dry goods dealers and jobbers complain somewhat of the slowness with which orders from the interior are received. Retailers are doing a little more business than before the fair weather began.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies see that they are cured for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it Look at the Directory for 1862 and 1863 The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patients' letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco Post Office Box 252
